

IMPLANT, COSMETIC

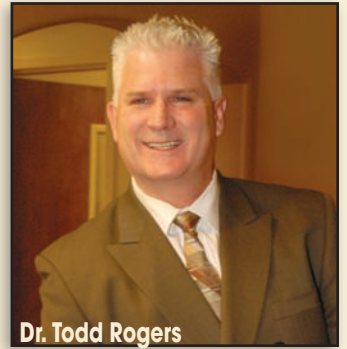

AT TODD ROGERS DENTAL YOU ARE

My Dentures Just Don't Fit.

I've Tried Everything, Nothing Helps!

**I Am Ready to Find Out What
Dental Implants Can Do for Me!**

Hi! I'm Dr. Todd Rogers, born and raised in Colorado. Over the years, as I've placed Dental Implants, I've realized that there are many wonderful people with limitations emotionally, mentally and physically. They are desperately searching for a way to improve the quality of their life. Loose, ill-fitting dentures or teeth that cannot be restored feels like a condition that is disabling and almost impossible for those around you to understand.

Dr. Todd Rogers

What Are the Limitations in Your Life?

- Do you cover your mouth when you laugh, cough or sneeze, fearing your dentures will slip and fall out?
- Do you dream of one day eating the foods you used to eat, like a big juicy steak or delicious green salad?
- Do you avoid going out for dinner with friends and family because all you can eat is soft, mushy foods?
- Do you have that 'sunken denture' look, with lines and wrinkles around your nose and mouth?

CALL US TODAY... Together, we will discuss exactly what YOU would like to have done, the cost, and the time necessary to achieve the expected results. You will find that the procedure is **AFFORDABLE, IMMEDIATE** and has **GUARANTEED** results!

Limited Exam & X-Ray

Choosing Dr. Rogers - - - One of the

& FAMILY DENTISTRY

BE TREATED AS PART OF OUR FAMILY!

The Problem: My Dentures Don't Fit = Bone Loss!

- 1. Jawbone with presence of natural teeth
 - 2. Bone loss beginning without the presence of natural teeth
 - 3. With advanced bone loss the denture "floats"
- With time, there will be more **bone loss** and the need for more **denture adhesive** and more **relines** at the dental office. It is a continual cycle.

FREE CONSULTATION

complete with **PRIVATE** examination and x-rays, to assess your dental condition. It's that easy.

ONE FREE IMPLANT

when 3 or more are placed. For new patients only.

With Peak Values Coupon. Expires 5/31/12

The Solution: An Implant-Supported Denture

Dental Implants are the closest thing to natural teeth. A Dental Implant is a man-made replacement for the root of a tooth. A small titanium screw is implanted in the jawbone, and functions much like the root of your natural tooth.

Many who wear dentures know that keeping them in place is often difficult, especially those with lower dentures. We understand the personal pain and humiliation you feel because of ill-fitting dentures. Dental Implants will **preserve** your jawbone and **stabilize** your denture. You will feel and act more like your 'natural self' again, laughing and speaking with confidence. With a smile that is long-lasting, often for a lifetime.
